I would like to commend the Youth Golfers Outreach Program for developing the Golfers Gym Training and Teaching System. It is encouraging and impressive that all students can now learn the fundamentals of golf within their own school gymnasiums as a result of Youth Golfers Outreach.

This is a unique curriculum that will increase our youth's understanding of golf and its related disciplines. Implementation of the Golfers Gym Training and Teaching System within local schools will expose more students to the health and fitness benefits golf has to offer. As students engage in the rich character building principles that go along with learning the game of golf, I am certain the program will benefit their positive development in other areas of study as well.

Local Wal-Mart stores are dedicated to supporting the community we serve. Wal-Mart is proud to be associated with this wonderfully effective educational tool that promotes healthy lifestyles and physical fitness. Through collaborative support from local businesses and the corporate community, it is Wal-Mart's hope that more students will have an opportunity to experience the Youth Golfers Outreach Program.

I encourage your support for this worthwhile school program. The Youth Golfers Outreach Program will impact our students as well as our entire community.

Sincerely,

Mark Hunsucker
